Report of Independent Auditors

To the Board of Directors of
The UCLA Foundation

Opinion

We have audited the accompanying financial statements of the UCLA Foundation (the “Foundation”), a component unit of the University of California, which comprise the statements of net position as of June 30, 2022 and 2021, and the related statements of revenues, expenses and changes in net position and of cash flows for the years then ended, including the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation’s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors’ Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

The accompanying management's discussion and analysis on pages 3 through 6 is required by accounting principles generally accepted in the United States of America to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

THE UCLA FOUNDATION

Management's Discussion and Analysis (Unaudited)

June 30, 2022 and 2021

The UCLA Foundation, formerly the UCLA Progress Fund, Inc., was established in 1945. The purpose of The UCLA Foundation is to encourage financial support for the University of California, Los Angeles (UCLA) through private gifts. The UCLA Foundation provides an efficient vehicle for accepting private donations and gifts as an adjunct to money raised for UCLA through The Regents of the University of California.

The following discussion and analysis of The UCLA Foundation's financial performance presents an overview of financial activities for the fiscal year ended June 30, 2022 (FY22), with selected comparative information for the fiscal year ended June 30, 2021 (FY21), and the fiscal year ended June 30, 2020 (FY20). The discussion and analysis has been prepared by management and should be read in conjunction with and is qualified in its entirety by the accompanying audited financial statements and notes.

Using This Report

This annual report consists of a series of financial statements prepared in accordance with the Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis—For State and Local Governments*.

One of the most important questions asked about The UCLA Foundation finances is whether The UCLA Foundation is better or worse off as a result of the year's activities. The keys to understanding this question are the Statements of Net Position, Statements of Revenues, Expenses and Changes in Net Position and the Statements of Cash Flows. These statements present financial information in a form similar to that used by private sector companies. The UCLA Foundation's net position (the difference between assets and liabilities and deferred inflows) is one indicator of The UCLA Foundation's financial health. Over time, increases or decreases in net position is one indicator of the improvement or erosion of The UCLA Foundation's financial condition when considered in combination with other non-financial information.

The Statements of Net Position include all assets and liabilities and deferred inflows. The Statements of Revenues, Expenses, and Changes in Net Position present revenues earned and expenses incurred during the year. Activities are reported as either operating or non-operating. Operating revenues include current use (non-endowed) gifts to The UCLA Foundation, and operating expenses include gift fund distributions such as grants to the campus. Investment results are reported as non-operating revenues. The statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Another way to assess the financial health of The UCLA Foundation is to look at the Statements of Cash Flows. Its primary purpose is to provide relevant information about the sources and uses of cash of an entity during a given period, and it helps users assess an entity's ability to generate cash flows.

THE UCLA FOUNDATION

Management's Discussion and Analysis (Unaudited)

June 30, 2022 and 2021

Financial Highlights

In FY22, The UCLA Foundation's total assets decreased by 2% or \$73.4 million to \$4,620.2 million at June 30, 2022, from \$4,693.6 million at June 30, 2021. In FY21, The UCLA Foundation's total assets increased by 26% or \$964.3 million to \$4,693.6 million at June 30, 2021, from \$3,729.3 million at June 30, 2020.

FY22 gifts to The UCLA Foundation, including donor contributions and additions to true endowments, decreased 65% or \$262.7 million in FY21 to \$666.8 million from \$404.1 million in FY21. Gifts to The UCLA Foundation decreased 26% or \$144.9 million in FY21 to \$404.1 million, down from \$549.0 million in FY21. Please see the *Operating and Non-operating Revenues and Expenses* section below for further details.

Assets

Assets include cash, investments, pledges receivable, beneficial interest in split interest agreements, and other assets. Other assets include investment proceeds receivable and donor contributions in transit. Proceeds receivable represent amounts due for investments sold in one fiscal year, but which do not settle until the following fiscal year.

In FY22, assets decreased 2% or \$73.4 million to \$4,620.1 million from \$4,693.6 million at June 30, 2021. Investments decreased 2% or \$75.6 million due to fiscal year endowed investment pool returns of (10.2%) and contributions and private gifts of permanent endowments of \$666.8 million. Pledges receivable decreased \$44.4 million as pledge payments were greater than new pledges in FY22.

In FY21, assets increased 26% or \$964.3 million to \$4,693.6 million from \$3,729.3 million at June 30, 2020. Investments increased 33% or \$1,037.6 million due to fiscal year endowed investment pool returns of 34.3% and private gifts of permanent endowments of \$116.4 million. Pledges receivable decreased \$34.6 million as pledge payments were greater than new pledges in FY21.

Liabilities

Liabilities consist primarily of other liabilities, annuities payable, liabilities to life beneficiaries, and unearned revenue. Unearned revenue represents gift payments received that do not yet meet the revenue recognition requirements of Governmental Accounting Standards.

In FY22, The UCLA Foundation's total liabilities increased by \$18.5 million from \$60.8 million to \$79.3 million.

In FY21, The UCLA Foundation's total liabilities increased by \$5.7 million from \$55.1 million to \$60.8 million.

THE UCLA FOUNDATION

Management's Discussion and Analysis (Unaudited)

June 30, 2022 and 2021

Operating and Non-operating Revenues and Expenses

The condensed schedules of revenues, expenses and changes in net position summarize operating income, non-operating revenues, and private gifts of permanent endowments for FY22, FY21, and FY20.

In FY22, The UCLA Foundation's contribution revenue increased \$224.5 million to \$512.2 million from \$287.7 million, a 78% increase. Private gifts of permanent endowments increased \$38.1 million to \$154.5 million in FY22 from \$116.4 million in FY21, a 33% increase. This resulted in a combined increase in total giving of 65%. The UCLA Foundation recorded operating expenses of \$365.8 million in FY22, an increase of \$0.6 million from FY21. The increase in contribution revenue and increase in operating expenses, resulted in net operating gain of \$146.4 million in FY22. As compared to net operating loss of \$78.7 million in FY21, this represents an increase of \$225.1 million in net operating income.

In FY21, The UCLA Foundation's contribution revenue decreased \$116.8 million to \$287.7 million from \$404.5 million, a 29% decrease. Private gifts of permanent endowments decreased \$28.1 million to \$116.4 million in FY21 from \$144.5 million in FY20, a 19% decrease. This resulted in a combined decrease in total giving of 26%. The UCLA Foundation recorded operating expenses of \$366.4 million in FY21, an increase of \$29.2 million from FY20. The decrease in contribution revenue and increase in operating expenses, resulted in net operating loss of \$78.7 million in FY21. As compared to net operating income of \$67.3 million in FY20, this represents a decrease of \$146.0 million in net operating income.

Non-operating revenues and expenses include net investment income, realized gains and losses on investments, and change in fair value of investments. Net non-operating expenses in FY22 totaled \$372.6 million as compared to revenues of \$921.6 million in FY21, a decrease of \$1,294.4 million. FY21 net non-operating revenue increased by \$990.4 million to \$921.6 million from a net non-operating revenue of \$21.2 million. The FY22 decrease was due to Endowed Investment Pool (EIP) investment return of (10.2%) whereas FY21 EIP investments returned 34.3%.

Net Position

In FY22, net position decreased by \$71.7 million to \$4,504.7 million from \$4,576.4 million in FY21. This was primarily due to fiscal year endowed investment pool returns of (10.2%), contribution revenue of \$512.2 million in FY22, and private gifts of permanent endowment of \$154.5 million. The increase in net position in FY21 of \$959.4 million to \$4,576.4 million from \$3,617.0 million was primarily due to contribution revenue of \$287.7 million in FY21, private gifts of permanent endowment of \$116.4 million.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(1) Organization

The UCLA Foundation, formerly the UCLA Progress Fund, Inc., was established in 1945. The purpose of The UCLA Foundation is to encourage financial support for the University of California, Los Angeles (UCLA) through private gifts. In addition, The UCLA Foundation provides a vehicle for accepting all types of private donations and gifts as an adjunct to money raised for UCLA through The Regents of the University of California. The UCLA Foundation is a component unit of the University of California.

The Foundation is governed by an independent Board of Directors, the membership of which includes the Chancellor of UCLA. The Foundation was established solely to support the mission of UCLA. Upon dissolution, liquidation or winding up of the Foundation, the assets remaining after payment, or provision for payment, of all debts and liabilities of the Foundation shall be distributed to the Regents for the benefit of UCLA, provided the Regents of the University have maintained tax-exempt status under the Internal Revenue Code and relevant California laws. The Foundation is considered a governmental not-for-profit organization, subject to reporting under the Governmental Accounting Standards Board (the GASB).

Under an agreement formalized on May 16, 1983, The UCLA Foundation transfers monies to UCLA to be spent in accordance with the donor's request. UCLA assumes responsibility for actual disbursement; therefore, The UCLA Foundation's net position does not include any monies held but not yet expended by UCLA.

In 2011, The UCLA Foundation's Board of Directors formed The UCLA Investment Company, a nonprofit organization, to assume oversight and management of the UCLA endowment and other assets under management by The UCLA Foundation. The UCLA Investment Company is led by the Chief Investment Officer of The UCLA Foundation. The UCLA Foundation appoints the board that governs The UCLA Investment Company. The UCLA Foundation Board Chair and UCLA Chief Financial Officer serve as Directors on The UCLA Investment Company Board. The UCLA Foundation controls The UCLA Investment Company by appointing all members of the board. The UCLA Investment Company only provides services to UCLA, and accordingly, The UCLA Investment Company is presented as a blended component unit within the UCLA Foundation's financial statements.

(2) Summary of Significant Accounting Policies

A summary of the significant accounting policies applied in the preparation of these financial statements is presented below:

(a) Basis of Accounting

The accompanying financial statements include the accounts of The UCLA Foundation and The UCLA Investment Company (together The UCLA Foundation). The statements have been prepared in accordance with U.S. generally accepted accounting principles, including all applicable effective standards of the GASB. The statements are prepared using the economic resources measurement focus and the accrual basis of accounting. All intercompany balances and transactions have been eliminated.

(b) Cash

The UCLA Foundation considers all operating demand deposit accounts as cash. At June 30, 2022 and 2021, the carrying amount of The UCLA Foundation's general ledger cash held was approximately \$68.1 million and \$7.3 million, respectively. At June 30, 2022 and 2021, The UCLA Foundation had cash in banks in excess of the Federal Deposit Insurance Corporation (FDIC)

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

insurance limits of approximately \$66.6 million and \$5.3 million, respectively. To mitigate custodial credit risk, The UCLA Foundation conducts business with banks with national recognition.

(c) Investments

Investments are reported at fair value. The basis of determining the fair value of investments is the readily determinable sales price or current exchange rate of the investments based on prices or quotations from actively traded markets, where available. Generally, mutual funds and pooled funds are valued at the net asset value per share (NAV) of the share class held. Alternative investments are primarily valued based on final or estimated NAV reported by the general partners and managers of the respective alternative investment as of the statement of net position date. In instances where the dates are not coterminous, alternative investments are valued based on the most recent NAV adjusted for any subsequent cash flows through the statement of net position date. NAV reported by the general partners or fund managers is based on the fair value of the alternative investments' underlying assets as determined in accordance with policies established by each general partner or fund manager. Management reviews and evaluates the valuations received from fund managers by comparing the valuations to expectations based on market performance. Management believes that NAV is a practical expedient to estimating fair value. As alternative partnership investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed.

Investment income is comprised of dividends, interest, and other investment income and is shown net of external investment management and custody fees.

Endowed Investment Pool

The UCLA Foundation's endowment and certain other balances are managed in a unitized investment pool called the Endowed Investment Pool (EIP). Other balances include affiliated entities who invest in the EIP and certain unrestricted funds. All EIP assets are classified as non-current regardless of maturity due to the long-term nature of the intended use of gifts or affiliated entity funds invested in this pool. Transactions within each individual account within the EIP pool are based on the unit market value at the end of the quarter during which the transaction takes place. The mission of the EIP is to support the educational mission of UCLA by providing a reliable source of funds for current and future use. The EIP has two primary goals. First, the purchasing power of the assets is intended to be maintained in perpetuity, and second, the EIP seeks to achieve investment returns sufficient to sustain the level of spending necessary to support ongoing UCLA operations.

The UCLA Foundation follows the Uniform Prudent Management of Institutional Funds Act (UPMIFA) adopted by the state of California in January 2009. UPMIFA does not set specific expenditure limits; instead, a charity can spend the amount the charity deems prudent after considering the donor's intent that the endowment continues permanently, the purpose of the fund, and relevant economic factors. The UCLA Foundation's fiscal year 2022 spending rate is set at 4.25% of a 12-quarter rolling average market value while the spending rate for fiscal year 2021 was 5.00%. The Board of Directors of The UCLA Foundation reviews and approves this rate annually. Payout is distributed to individual funds quarterly based on the number of units in each fund at the beginning of the quarter.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

Unendowed Investment Pool

The UCLA Foundation maintains an Unendowed Investment Pool (UIP). This pool is primarily invested in the Regent's Short-term Investment Pool (Regent's STIP). The fiscal year 2022 year-end balance invested in the Regent's STIP by the UCLA Foundation and Custodial Investments Funds were \$736.1 million and \$123.1 million respectively. The fiscal year 2021 year-end balance invested in the Regent's STIP by the UCLA Foundation and Custodial Investment Funds were \$496.7 million and \$57.3 million, respectively. All gifts intended for current expenditure as well as unspent endowed pool payout and affiliated entity short-term accounts are invested in the UIP. UIP investments are reported at fair value.

Annuity and Life Income Funds

The UCLA Foundation's Annuity and Life Income Funds consist of The UCLA Foundation Trusts, Pooled Income Fund, and Gift Annuity Fund. These investments are reported at fair value and classified as non-current regardless of maturity due to donor and/or time restrictions limiting The UCLA Foundation's ability to use these investments except for cash held to service immediate cash flow needs.

The UCLA Foundation Trusts

Trusts are established by donors to provide income, generally for life, to designated beneficiaries, except for a lead trust, which pays its income for a term of years to The UCLA Foundation.

Upon termination of each trust, its assets generally will be distributed to The UCLA Foundation, or individuals named by the donor in the case of the lead trust, for the purposes designated in the trust agreements. Each year, beneficiaries receive payments as specified in the trust agreement: a fixed payment (annuity trusts) or a percentage of the trust's fair market value (standard unitrust), which may be limited to the net income (net-income-with-make-up unitrusts).

The trusts are separate legal entities, created under the provisions of the Internal Revenue Code and applicable California law.

Each trust has a calendar year-end as required by the Internal Revenue Code. The charitable remainder trusts are exempt from federal and California income taxes, except in any year in which they receive unrelated business taxable income.

Pooled Income Fund

The UCLA Foundation serves as trustee of The UCLA Foundation Pooled Income Fund (the Pooled Fund). The Pooled Fund was created on June 8, 1983, under the provisions of Section 642 of the Internal Revenue Code, and received its first gift on November 1, 1985. The Pooled Fund has a calendar year-end as required by the Internal Revenue Code. The Pooled Fund is exempt from federal and California income taxes except on short-term capital gains and unrelated business taxable income.

Gifts to the Pooled Fund are commingled for investment and administration purposes. Each donor retains a life income interest in the Pooled Fund for one or more beneficiaries. Each donor is assigned units of participation at the time of contribution.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

Income is distributed on a quarterly basis according to each beneficiary's units of participation. Upon termination of the life income interest, the donor's pro rata share of the Pooled Fund balance is distributed to The UCLA Foundation for purposes designated in the trust agreements.

Gift Annuity Fund

Gift annuities are planned giving vehicles, whereby donors gift assets in exchange for annuity payments over their lifetime or that of their beneficiaries. Assets contributed are separately invested and are used to fund payments to the annuitants. Annuities that mature are used to fulfill the purposes that were set forth in the original annuity agreement.

(d) Land and Buildings

The UCLA Foundation periodically receives real estate either as an outright gift or in accordance with a planned gift arrangement. These properties are recorded at acquisition value on the date of the gift. At fiscal year-end, the acquisition values of land and buildings are updated based on recent market conditions and are based on the recent sales prices for comparable properties.

(e) Pledges Receivable

Pledges are written unconditional promises to make future payments. The Foundation recognizes a receivable and revenue at the time the pledge is made by the donor if the pledge is verifiable, measurable, probable of collection, and meets all applicable eligibility requirements. Pledges extending beyond one year are discounted to recognize the present value of the future cash flows. In subsequent years, this discount is accreted and reported as additional contribution revenue in accordance with donor-imposed restrictions, if any. In addition, pledges are reported net of an allowance, which includes specific reserves for items that are past due in payments as well as a general reserve which is based on The UCLA Foundation's 3-year rolling average loss experience.

Conditional pledges, which depend on the occurrence of a specified future or uncertain event such as matching gifts from other donors or time restrictions on expenditure, plus all pledges for endowment purposes, are recognized when the conditions are substantially met.

(f) Donated Assets

Securities and other non-monetary items donated to The UCLA Foundation are recorded at fair value and acquisition value, respectively, on the date of the gift. Fair values and acquisition values are updated as of the statement of net position date for any unsold donated assets. Fair value is based on the recent sales prices for comparable assets.

(g) Annuities Payable and Liabilities to Life Beneficiaries

Annuities payable and liabilities to life beneficiaries represent gifts made to The UCLA Foundation in which a designated beneficiary retains an interest in the gift as specified in the trust or gift agreement. For these funds, liability for beneficiary payments is established representing the present value of the estimated future beneficiary payments over the expected life of the life beneficiary. The liability is calculated using standard gift annuity tables and applicable IRS guidelines. The difference between the fair value of the trust assets and the liability for beneficiary payments is recorded as deferred inflows at the date of gift.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

For the year ended June 30, 2022 and 2021, liabilities for gift annuities and trusts are discounted based on the discount rate as of the date of the gifts, which ranged from 0.4% to 10.6%.

(h) Deferred Inflows

Deferred inflows of resources represent an acquisition of net position that applies to a future period. The Foundation classifies changes in irrevocable split-interest agreements as deferred inflows of resources. These amounts will be recognized as revenue at the termination of the split-interest agreements. Deferred inflows also include contributions received from donors which do not yet meet the time requirements to be recorded as revenue under government accounting standards. These amounts will be reclassified to gift revenue when all time requirements have been met.

(i) Net Position

When possible, The UCLA Foundation uses restricted resources when an expense is incurred for which both restricted and unrestricted resources are available. Net position comprises the following:

Restricted – non-expendable includes permanent endowments. Such funds are generally subject to donor restrictions requiring that the principal be invested in perpetuity for the purpose of producing income and appreciation that may be expended or added to principal in accordance with the donor's wishes. Trust resources that are not expendable upon maturity are also classified as restricted non-expendable net position.

Restricted – expendable relates to contributions designated by donors for use by particular entities or programs or for specific purposes or functions of UCLA. Included within restricted expendable net position are endowment earnings, funds functioning as endowments and gifts.

Endowment earnings – Endowment earnings consist of income and change in fair value of endowment investments and are classified as restricted-expendable net position unless otherwise specified by the donor.

Funds functioning as endowment – Funds functioning as endowments are gifts which are restricted for a specific purpose by the donor, yet, unlike endowments, the principal is not permanently restricted. However, it is management's intent to invest these funds on a long-term basis for future use.

Gifts – Gifts are donations to The UCLA Foundation that are restricted by the donor for a specific purpose or pledges receivable net of discount and allowance.

Unrestricted is the net position of The UCLA Foundation that is not subject to donor-imposed restrictions, including donor-advised funds.

Custodial investment funds – restricted represent funds held by the Foundation under an agency relationship with various affiliated entities, and are not included in the net position of the UCLA Foundation.

(j) Classification of Revenues and Expenses

Operating revenues include contributions from various donors and includes donor-advised fund donations. Operating expenses primarily include gift fund distributions, gift fund administration

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

fees, endowed cost recovery, and a grant for the UCLA Chancellor's priorities. Gift fund distributions are disbursements to UCLA in support of activities consistent with the donor's wishes as well as donor-advised fund disbursements. The gift administration fee is a 6.5% fee charged to most gifts for the development and related program costs of The UCLA Foundation. The endowed cost recovery is an annual charge The UCLA Foundation incurs to partially defray the costs to operate an endowment. The UCLA Foundation funded a grant to the Chancellor in the amount of \$6 million in fiscal year 2022 and \$6 million in fiscal year 2021. These grants are reported as UCLA Chancellor's priorities in the Statements of Revenue, Expenses, and Changes in Net Position.

Non-operating revenues and expenses primarily include interest, dividends, distributions, and net realized gains (losses) on the sale of investments as well as the net change in fair value of investments held at the end of the period. Non-operating expenses are presented net of external custody and investment management fees.

Gifts for permanent endowment purposes are classified under other changes in net position and are new gifts received during the fiscal year for The UCLA Foundation's endowment.

(k) Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(l) Income Taxes

The UCLA Foundation is exempt from taxation under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the California Revenue and Taxation Code and is generally not subject to federal or state income taxes. However, The UCLA Foundation is subject to income taxes on any net income that is derived from a trade or business, regularly carried on, and not in furtherance of the purpose for which it is granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business, in the opinion of management, and is not material to the basic financial statements taken as a whole.

(3) Investments

The UCLA Foundation holds significant investments in the form of domestic, international and global equity funds. In addition, The UCLA Foundation invests in private equity funds, multi-strategy funds, as well as credit, real asset, and real estate investment funds. The investment guidelines permit alternative investments primarily in partnerships where The UCLA Foundation is a limited partner relying upon the expertise of experienced general partners. All limited partnerships in which The UCLA Foundation invests are subject to annual audits. The investment guidelines also permit direct investments in equity or other instruments.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

The following table provides the composition of investments at June 30, 2022 and 2021:

	2022	2021
	<i>(in thousands of dollars)</i>	
Equity securities		
Domestic	\$ 15,256	\$ 13,436

Total investments	\$ 4,125,104	\$ 4,200,717

Investments are exposed to several risks, such as market, credit, custodial, foreign currency, and interest rate risks, which can affect the value of the investments. Market risk is the possibility that the investments experience losses due to factors that affect the overall performance of the financial markets such as economic conditions, individual company earnings, and market liquidity.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(a) Credit Risk

Fixed income securities are subject to credit risk, which is the chance that a bond issuer will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. The credit portfolio is diversified across credit asset classes and holds a mixture of investment grade and high yield securities of performing and nonperforming debt. Liquidity and volatility will vary by strategy. The portfolio will focus on capital appreciation rather than current income and will not be managed to specific duration guidelines. The credit risk profile of investments schedule summarizes the fair value of fixed income securities subject to credit risk.

	2022	2021
	<i>(in thousands of dollars)</i>	
Fixed or variable income securities		
U.S. government guaranteed	\$ 7,046	\$ 8,455
Other U.S. dollar denominated		
AAA	-	-
AA	52	85
BBB	-	3,277
BB	58,810	76,675
B	63,776	56,811
CCC or below	12,931	12,818
Not rated	6,263	54
Total other U.S. dollar denominated	141,832	149,720
Commingled funds		
U.S. bond funds: Not rated	71,908	61,754
Non-U.S. bond funds: Not rated	3,782	5,207
Money market funds: Not rated	1,023,386	651,933
Total commingled funds subject to credit risk	1,099,076	718,894
Custodial Investment Funds	(152,889)	(80,296)
Total funds subject to credit risk	\$ 1,095,065	\$ 796,773

(b) Concentration of Credit Risk

Concentration of credit risk is the risk associated with a lack of diversification or having too much invested in a few individual shares. The UCLA Foundation's allocation to the credit portfolio is diversified across credit asset classes and holds a mixture of investment grade and high yield securities of performing and non-performing debt. Accordingly, there are no investments in any one issuer that represents 5% or more of total fixed income investments.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(c) Custodial Risk

Custodial risk is the risk that in the event of the failure of the custodian, the investments may not be returned. Many of The UCLA Foundation's investments represent ownership interest that do not exist in physical or book entry form. Other investments are issued, registered, or held in the name of The UCLA Foundation by its master custodian bank, as its agent. Certain private securities are held in FY22 via transfer agents. As a result, management believes that custodial risk is remote.

(d) Interest Rate Risk

Interest rate risk is the risk that fixed income securities will decline because of rising interest rates. The UCLA Foundation measures interest rate risk using the effective duration method. The portfolio will be diversified across credit strategies and hold a mixture of investment grade and high yield securities of performing and non-performing debt. Liquidity and volatility will vary by strategy. The portfolio will focus on capital appreciation rather than current income and will not be managed to specific duration guidelines. The interest rate risk schedule below summarizes the average effective duration of its fixed income investments.

	2022	2021
	<i>(effective duration in years)</i>	
Fixed or variable income securities		
U.S. Government		
U.S. Treasury bills	-	.2
U.S. Treasury notes	2.6	2.8
U.S. Government backed – asset backed securities	6.4	4.7
Other U.S. dollar denominated		
Corporate bonds	2.3	.9
Others	9.6	9.6
Commingled funds:

Mortgage backed securities	\$ 111	\$ 165

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(e) Foreign Currency Risk

Foreign currency risk results from investments in foreign currency denominated equity or fixed income investments. The UCLA Foundation may utilize derivatives, exchange-traded funds or other instruments in order to manage the risk. The UCLA Foundation holds equity and other investments denominated in foreign currency that are summarized at fair value on the following foreign currency risk schedule.

	2022	2021
	<i>(in thousands of dollars)</i>	
Equity securities		
Indian Rupee	\$ 20,375	\$ 10,200
Miscellaneous	231	175

Various currency denominations		
Commingled funds - Non-U.S. equity	\$ 9,628	\$ 13,123
Commingled funds - Non-U.S. bond funds	3,782	5,206
Commingled funds - Real estate investment trusts	2,551	3,461
Commingled funds - Real assets	116,674	93,194
Commingled funds - Absolute return	702,006	1,032,718
Commingled funds - Balanced funds	-	71
Private equity	26,032	13,292
Real estate	65,252	46,809
Total commingled funds and others subject to foreign currency risk	\$ 925,925	\$ 1,207,874
Custodial Investment Funds	\$ (67,228)	\$ (92,511)
Total exposure to foreign currency risk	\$ 879,303	\$ 1,125,738

(4) Fair Value

Fair value is defined in the accounting standards as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities reported at fair value are organized into a hierarchy based on the levels of inputs observable in the marketplace that are used to measure fair value. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, liquidity statistics, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1 – Prices based on unadjusted quoted prices in active markets that are accessible for identical assets or liabilities are classified as Level 1. Level 1 investments include exchange traded funds, mutual funds, and other publicly traded securities.

Level 2 – Quoted prices in the markets that are not considered to be active, dealer quotations, or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly are classified as Level 2. Level 2 investments include fixed- or variable-income securities, certain derivatives and other assets that are valued using market information.

Level 3 – Investments and beneficial interest in irrevocable split interest agreements classified as Level 3 have significant unobservable inputs, as they trade infrequently or not at all. The inputs into the determination of fair value of these investments and beneficial interest in irrevocable split interest agreements are based upon the best information in the circumstance and may require significant management judgment. Level 3 financial instruments include investments in privately held companies, real estate, and beneficial interest in irrevocable split interest agreements. The UCLA Foundation uses a combination of the market and income approaches to fair value the privately held companies and beneficial interest in split interest agreements. Real estate is fair valued using the market approach to valuation.

Not Leveled – Insurance policies where The UCLA Foundation is beneficiary are not measured at fair value, instead, these are recorded at cash surrender value.

Net Asset Value Per Share – Investments which use NAV as a practical expedient to determine fair value are excluded from the fair value hierarchy. Such investments do not have a readily determinable fair value and may be valued at NAV provided that the NAV of the investment is calculated in a manner consistent with the measurement principles of GASB Statement No. 72, *Fair Value Measurement and Application*, as of The UCLA Foundation's measurement date. Investments measured at NAV include hedge funds, private equity investments, real estate, and commingled funds. In addition, The UCLA Foundation's investments include investments in certain pools managed by the University of California (UC) (principally the STIP as discussed in Note 2). The UC investment pools transact at share value or NAV as determined by the University of California based upon the underlying fair values of the pooled investments. These investment pools are not registered with the Securities and Exchange Commission. The UC's Chief Investment Officer manages the pools and the Regents, as the governing board, are responsible for the oversight. Additional information on the UC investment pools can be obtained from the Annual Financial Report of the University of California.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

Total		\$ 3,854,227	\$ 632,153			

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(5) Derivative Financial Instruments

Investments are exposed to several risks, such as market, credit, custodial, foreign currency, and interest rate risks, which can affect the value of the investments. In order to manage the risks and the directionality of the portfolio, The UCLA Foundation investment policy allows for investing in derivatives or other instruments.

Total return equity swaps

The UCLA Foundation entered into total return swaps with financial institutions for investment purposes. The total return swaps are traded on the over-the-counter market. Total return swap contracts involve the receipt of income on a referenced asset, plus any capital gains or losses over the payment period. The other party to the swap receives a specified fixed or floating cash flow unrelated to the credit worthiness of the referenced asset. The UCLA Foundation's total return swap contracts are scheduled to terminate in 2022.

The fair value balances and notional amounts of the derivative instruments outstanding at June 30, 2022, and June 30, 2021, respectively, and the changes in the fair value of such investment derivatives for the years then ended for The UCLA Foundation and The UCLA Foundation custodial investment funds are as follows:

	Notional Amount		Classification	Fair Value		Classification	Changes in Fair Value	
	2022	2021		2022	2021		2022	2021
<i>(in thousands of dollars)</i>								
Business-type activities								
Total return swaps equity	\$143,377	\$157,275	Short-term and Long-term investments	\$ -	\$ 1,439	Realized gains (losses) and change in fair value of investments, net	\$(26,767)	\$ 29,437
Written options	\$ -	\$ -	Current liabilities Accounts and grants payable	\$ 9,232	\$ 7,070	Realized gains (losses) and change in fair value of investments, net	\$(17,838)	\$(12,930)

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(6) Approved Endowment Payout

The approved endowment payout allocated to donor-restricted endowment funds was comprised of the following at June 30:

	<u>2022</u>	<u>2021</u>
	<i>(in thousands of dollars)</i>	
Investment income, net	\$ 36,733	\$ 27,737
Net accumulated gains and principal	75,229	90,736
	<u>\$ 111,962</u>	<u>\$ 118,473</u>

In addition to the above, The UCLA Foundation allocated payout to affiliated entities and unrestricted funds of \$32.2 million in fiscal year 2022 and \$33.9 million in fiscal year 2021, bringing the total endowed investment pool approved payout to \$144.1 million in fiscal 2022 and \$152.3 million in fiscal year 2021.

(7) External Investment Pool

The EIP is an external investment pool and participants include The UCLA Foundation as well as organizations that are associated with The UCLA Foundation and UCLA, although not financially accountable to The UCLA Foundation. These organizations are not required to invest in the EIP.

The EIP is fair valued quarterly. Participants may purchase or redeem shares quarterly at the unitized value of the portfolio at the time of purchase or redemption. Payout and investment earnings are allocated quarterly to all participants based on the number of shares held at the beginning of the quarter.

The EIP is not registered with the SEC and is not subject to any formal oversight other than that provided by The UCLA Investment Company and The UCLA Foundation boards of directors.

The EIP investments authorized by The UCLA Foundation board of directors include equity, private equity/venture capital, multi-strategy, credit, real assets, real estate, and cash. The portfolio may utilize derivatives, exchange-traded funds or other instruments to manage risk.

Since a separate annual financial report of the EIP has not been and is not planned to be issued, the following additional disclosures are being provided in The UCLA Foundation's financial statements.

The following are schedules of the EIP's Condensed Statements of Net Position and Statements of Operations and Changes in Net Position as of and for the years ended June 30, 2022 and June 30, 2021. The EIP represents the majority of The UCLA Foundation's total investments. As of June 30, 2022, in addition to the EIP, total investments also include \$859.2 million held in the UIP, \$53.8 million in Annuity and Life Income Funds, \$22.9 million in separately held special purpose funds, and \$12.8 million in gifts of real estate. As of June 30, 2021, total investments also include \$554.0 million held in the UIP, \$71.5 million in Annuity and Life Income Funds, \$30.3 million in gifts of real estate, and \$28.1 million of separately held special purpose funds.

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(8) Pledges Receivable

Pledges receivable consist of the following at June 30:

	2022	2021
	<i>(in thousands of dollars)</i>	
Pledges receivable, gross	\$ 508,535	\$ 551,676
Less		
Allowance for uncollectible pledges	(23,419)	(17,781)
Discount for future payments	(82,765)	(87,151)
Pledges receivable, net	\$ 402,351	\$ 446,744
Current pledges receivable, net	\$ 100,102	\$ 79,141
Non-current pledges receivable, net	302,249	367,603
	\$ 402,351	\$ 446,744

Management evaluates the collectability of its receivables and records an allowance for estimated uncollectible amounts. The UCLA Foundation recorded a loss provision for uncollectible pledges of \$8.4 million in fiscal year 2022 and a loss provision of \$2.3 million in fiscal year 2021. Loss provisions are recorded as adjustments to contribution revenue. In addition, The UCLA Foundation recorded an increase in contribution revenue due to present value adjustments of \$4.4 million in FY22 and \$6.9 million in FY21. Pledges due beyond one year have been discounted at an annual rate of 0.4% for pledges received in fiscal year 2022 and 0.8% for pledges received in fiscal year 2021. Forty-four percent of the pledges receivable, net of discount, are from five donors in fiscal 2022 as compared to 53% in fiscal year 2021.

(9) Annuity and Life Income Funds

Changes in annuity and life beneficiary liabilities during FY22 and FY21 are summarized as follows:

(in thousands of dollars)

				Less: Adjustments to	
Liabilities to:	Balance at	New	Beneficiary	Existing	Balance at
	June 30, 2021	Obligations	Payments	Liabilities	June 30, 2022

	June 30, 2020	Obligations	Payments	Liabilities	June 30, 2021
Annuitants	\$ 20,477	\$ 185	\$ (2,342)	\$ 148	\$ 18,468
Life beneficiaries	16,935	2,351	(1,945)	3,917	21,258
Total	\$ 37,412	\$ 2,536	\$ (4,287)	\$ 4,065	\$ 39,726

THE UCLA FOUNDATION

Notes to Financial Statements

June 30, 2022 and 2021

(10) Related Parties

The UCLA Foundation supports UCLA and has the following organizational relationship with the University:

(a) Administrative Costs

The UCLA Foundation has a Board of Directors and designated officers; however, The UCLA Foundation does not have any employees. All functions and activities are conducted by employees of UCLA. UCLA employees serving Foundation functions are covered by the Regents' pension plan and post-retirement healthcare plan.

All of The UCLA Foundation's office space is provided by the University. Accordingly, the costs of the office space are not included in the accompanying financial statements.

(b) Gift and Endowed Cost Recovery Fees

In accordance with relevant UCLA policies, gift and endowed cost recovery fees are paid by The UCLA Foundation to UCLA. Both fees are designed to reimburse the University for the Administration costs discussed above. The standard gift fee is computed as 6.5% of the gift amount and the endowment cost recovery fee is calculated quarterly as 65 basis points of the beginning fair market value of the UCLA Foundation's portion of the Endowed Investment Pool (EIP). The gift and endowed cost recovery fees are included in operating expenses in the accompanying financial statements and totaled \$21.8 million and \$23.0 million in 2022 and \$17.4 million and \$19.2 million in 2021, respectively. The amounts due to campus for gift and endowed cost recovery fees were \$4.6 million as of June 30, 2022 and \$4.1 million as of June 30, 2021.

(c) Grants to Campus

The primary purpose of The UCLA Foundation is to raise funds in support of UCLA. In FY22, The UCLA Foundation issued grants to UCLA in the amount of \$279.5 million and \$284.4 million in FY21. These amounts are included in operating expenses under gift fund distributions and the UCLA Chancellor's priorities.

(d) Interest on Short-term Investments

Interest on short-term investments per UCLA policy is either credited to the benefitting fund or considered an unrestricted revenue source for the general fund of The UCLA Foundation. It is used to fund operating expenses of The UCLA Foundation and to make grants to UCLA.

(11) Subsequent Events

The Foundation has evaluated subsequent events from the net position date through September 15, 2022, the date which the financial statements were available to be issued, and determined there are no items to disclose.
